

Name: \_\_\_\_\_

## PICK YOUR LOCATION

Decide where your people will begin their civilization. Circle your location.

Using a biome map, determine which biome your people will be living in: \_\_\_\_\_

Identify some biotic (living) and abiotic (non-living) factors in this biome.

Biotic

Abiotic

What will your people use for food in their location?

How will your people create shelter using this environment?

What tools will your people create using the biotic and abiotic factors in their land?
